Strengths - Backend development, file parsing, Python, C++

Opportunities for growth - Front end development, React

Ryan Doohan:

Strengths - C++, design, communication, team player.

Opportunities for Growth - React, web development, Figma prototyping.

Jake Fitzpatrick:

Strengths - Javascript, planning, availability

Opportunities for Growth - figma, testing, and web development

Project Vision and Demographics

Vision:

Summary: This app is for people who seem to always be looking for others to make decisions for them. Maybe you wake up one morning and just can't decide which shirt matches your pants best. Maybe you want opinions on what picture to post on Instagram or even you're stuck in between names for a new pet, Committii will give you the decisiveness you need.

Project Idea: A social media site dedicated to polling.

Name: "Committii"

Slogan: "Life by committee"

Technical points of focus: Charts (Pie and Bar), Polling, Result Timing

Users: Individuals who vote on polls called committees/committees

Demographics:

Sex: Male or Female

Age: 14 - 45

Adjectives: Indecisive, Impressionable, Influential, Curious
